PLD Finland Oy will merge with sister company BioNordika Oy

We are pleased to announce the integration of **PLD Finland Oy** and **BioNordika Oy**. PLD Finland Oy with existing personnel will join forces with BioNordika Oy and as of 1st of September operate under the name:

BioNordika (Finland) Oy

We strongly believe that both our customers and suppliers will benefit from the synergy through much better service and technical support, with broader product range and complete maintenance of the instrumentation range. Our aim is to continue all operations seamlessly.

The new BioNordika is now able to offer full range of instrumentation, reagents, supplies and service for Analytical, Diagnostic and Research applications in Life Science. Please find more information about us through the website www.bionordika.fi

The former General Manager of PLD Finland Oy, Tomi Virtanen, has moved on his career and works as the Global Sales Director of Ledil Oy. We want to express our gratitude to Tomi and wish him all the luck. Tom Rontu has been assigned as the Instrument Group Manager for BioNordika Oy in addition to his earlier role as a Service Manager.

BioNordika Group was founded in 1989 and is today present in all the Nordic/Baltic countries via offices in Finland, Sweden, Denmark, Norway and Estonia. The BioNordika Group is a part of Addtech Life Science as PLD Finland Oy has been. More information is available under www.addtech.com.

We will be delighted to answer your specific questions.

Yours sincerely,

Tommi Laatikainen
General Manager
